

Trainee Patent Attorney – Electrical, IT & Physics Group

- National Patent, Trade Mark and Intellectual Property Firm
- Entry level Trainee Attorney position to join our National Electrical, IT & Physics Group
- Career development opportunities within a specialty field
- Located in our Perth office

Griffith Hack is a leading Australian firm of Patent and Trade Mark Attorneys and Intellectual Property Lawyers. This prestigious firm offers:

- the highest calibre of work;
- a blue chip local and overseas client list; and
- an excellent working environment.

Due to continued growth we are recruiting for a Trainee Patent Attorney to join our National Electrical, IT & Physics Group. The position will be located in our Perth office. Griffith Hack's Electrical, IT & Physics Group is a national, multi-disciplinary team servicing clients across the electrical, electronic, computer and telecommunications technology fields.

This is a trainee position which will evolve to encompass the full spectrum of patent activities including drafting, filing and prosecution of patent applications. Candidates with an ability to understand concepts in the fields of information technology and physics are encouraged to apply.

The successful candidate for this role will have:

- higher level results in a Degree in the area of Information Technology/Physics/Engineering;
- a demonstrable commitment to qualifying/registering as a Patent Attorney; and
- excellent communication skills, both written/verbal.

This role requires a candidate with a strong academic background, an interest in new technologies, an understanding of business development/commercial acumen skills, high level written skills and drive/enthusiasm. An innovative environment is on offer to the right candidate providing excellent career potential.
